NEW ENGLAND DUPLICATOR WELCOMES ERIN APAR

Manchester, NH – New England Duplicator is pleased to announce the addition of Erin Apar to its design team. Erin comes to the company with a background in prepress support to the offset-printing industry. She holds a BA in graphic design from Plymouth State University.

Apar is fluent in both Mac and PC platforms and is knowledgeable in all major graphic design programs. “Erin is able to work with the most complicated files our clients send us,” said Mark Wheeler, co-owner of New England Duplicator,” but her real talent is in graphic design. She can create a beautiful and effective marketing piece from only the vaguest concept.”

With Erin as part of the New England Duplicator team, companies that do not have their own design staff can still take advantage of the wide range of communication vehicles New England Duplicator has to offer. Co-owner Brian Joas says of Erin’s abilities, “She can design a campaign that’s right for the client whether it is full-color envelopes, post cards with personalized imprinting or you name it. Erin is very talented.”

Established in 1981, New England Duplicator is a local, independently owned corporation. Located at 8030 South Willow Street in Manchester, New England Duplicator provides digital printing, full-color digital output, Variable Data Printing, full-color envelopes, posters, complete bindery services and more. For more information, contact Mark Wheeler or Brian Joas at 603.623.7080, or visit www.nedupe.com.
